

## Where are My ANGEL Courses?

Aug. 22, 2011

If you are an instructor but can't find your courses on ANGEL, please check the following:

### 1. Is the semester folder open or closed?

Courses on ANGEL are organized by semesters. Each semester is a yellow folder. In order to see the courses, the folder must be open. If a folder is closed, courses are hidden inside. A single click on the yellow icon would open it. On the other hand, if you would like to save screen space by hiding old courses, you can simply close the folder of a past semester.

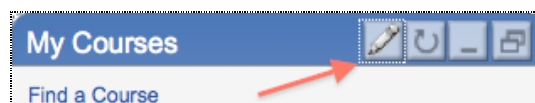

A folder that is closed up

A folder that is open

### 2. Is your ANGEL ready to display disabled courses?

If you still cannot see the courses, go to *My Profile* page, click on the pencil icon of the *My Courses* section:

Select **Yes** for *Show Disabled* and then **Save**. You will still have access to all the courses, whether they are displayed on *My Profile* or not.

**Advanced Settings**

**Group By**       Semester    Category

**Also Display**       Role    Category    Instructor    Semester

**Tasks**       Ungraded    Mail    Posts    Milestones    Tasks

**Show Disabled**       Yes    No
